Higher prices of formulations

1614. SHRI DHULESHWAR MEENA: Will the Minister of INDUSTRY be pleased to state:

(a) what were the prices of Glynase, Ostocalcium, Ildaman, Duvadilan, Neospor, Flucort, Duoluton, Proluton, Durabolin, Superistol and Equagesic range of formulations before the announcement of DPCO, 1987 and what are their prices on 30th April, 1989;

(b) what are the names of drugs on which each of these formulations are based; and

(c) what are the detailed basis of price decontrolling each?

THE MINISTER OF INDUSTRY (SHRI J. VENGALRAO): (a) As these formulations (except Ostocalcium, Superistol and Equagesic) fall under price decontrolled category, manufacturers themselves determine the prices. The required details are not readily available.

(b) and (c) The required details to the extent readily available are given in the enclosed statement (*See* below). Three formulations, namely: Ostocalcium, Supristol and Equagesic fall under price controlled category and the other formulations fall under decontrolled category as they do not contain any scheduled bulk drug.
